

Custom Golf Accessories Quote Comparison

Compare the same specification, quantity and delivery basis across suppliers.

1. Fix the quote basis

Product / set and version

Quantity per SKU

Delivery destination

Required date

2. Compare inclusions - not just unit price

Check item	Quote A	Quote B	Quote C
Supplier / quote date			
Product construction and composition			
Finished size / fit / tolerance			
Logo method and artwork coverage			
Attachment / hardware included			
Packing, labels and inserts			
Sample type, cost and approval			
Unit price and quantity break			
Setup, tooling or artwork charges			
Lead time after approval			
Incoterm, freight and destination			
Payment terms and quote validity			

Sample, risk and decision record

Record the exact version selected and anything excluded from the quote.

3. Approval and risk checks

- ☐ Artwork proof matches the intended logo, colors and print area
- ☐ Physical sample matches material, size, edge finish and hardware
- ☐ A complete packed unit has been reviewed where presentation matters
- ☐ Any certification claim has a document for the actual product or material
- ☐ Freight basis, packed weight and carton dimensions are clear
- ☐ Production schedule starts from the agreed approval point
- ☐ Changes after sample approval require a revised price or schedule

4. Decision and open questions

Selected supplier / quote reference

Selected product version and quantity per SKU

Why this quote meets the brief

Open questions or exclusions

Approved sample reference

Decision owner and date
